

Educating Public in Composting Techniques

23.02.2020

The students and faculty of Babu Jagjivan Ram Government Degree College collaborated with Dundigal Municipality and were involved in ***Educating Public in Composting Techniques Programme***, on 23-02-2020 in the Dundigal Municipality limits. Converting urban solid wastes into compost forms will have social, economic and environmental benefits; and help to reduce GHG emissions. The students learnt to develop an integrated and environmentally organic waste management system that ensures collection and treatment with sustainable methods. Innovative solutions are necessary to avoid degeneration of the environment and to manage waste. Every waste is a resource.

Impact: The students can gain Hands on experience in the concern topic, and it provides Skill Development, Environmental consciousness

Hygiene and Sanitation Programme

08.12.2019

The students and faculty of the college collaborated with Dundigal Municipality and were involved in the *Community Hygiene and Sanitation Programme* on 08-12-2019, in the Dundigal Municipality limits.

Hygiene is the practice of keeping oneself and one's surroundings clean in order to prevent infection and disease and remain healthy and fit. Sanitation is arrangements to protect the public health specially the provision of clean drinking water and proper disposal of sewage. For example, diarrhoea, a main cause of malnutrition and stunted growth in children, can be reduced through adequate sanitation

Impact: The students were able to take part in a programme related to sanitation systems which aim to protect human health by providing a clean environment that will stop the transmission of disease, especially through the faecal–oral route.

Tree Plantation Programme

10-8-2019

Every year the Haritha Haram Tree plantation programme is undertaken in the months of July and August. The students and faculty of the college collaborated with Dundigal Municipality during the past few years and are therefore, involved in the Tree Plantation programme on 10-8-2019, in the Dundigal Municipality limits.

The aim of planting trees is to restore native forests around villages to protect water supplies. Planting of trees and their care is a holy act. Planting trees reduces carbon dioxide, a principal greenhouse gas that contributes to global warming.

Impact: The students learnt to uplift the quality of our living environment through active planting, proper maintenance, so as to bring noticeable improvements in urban greenery .
