3. Duration No. of hours -60HRS (30HRS Th & 30HRS Prac ) No. of days -30days
4. Whether brochure containing details of curriculum, assessment, procedures, etc., is enclosed? YES
5. Number of students enrolled: 30 Students
6. Whether list of students is enclosed? (Yes/No): YES
7. Brief Report of the Certificate Course along with the outcome:

**Objectives:**

- The potential of mushroom farming is to generate new employment opportunities
- what could be better than learning about growing your own food, feeding your family, and selling the extra to line your family's coffers!

**Report:**

The certificate course is offered to all the UG I,II and III year students .30 students from all disciplines got enrolled and took the course. The course was offered from Dec-2017-Feb 2018,for a period of 30 days which includes theory and practical's ,each session is 2hrs duration after the college hours.

The high nutritional value of mushroom makes it is an ideal source of protein, vitamins and minerals. This alone should be reason enough for the us to encourage its widespread cultivation. Mushroom farming is the practice of growing mushrooms by using minimal space and nutrients .

Mushroom can be grown in different climatic conditions. In Indian conditions, three types of mushroom are grown widely, Button, Oyster and paddy straw Mushroom. Fresh Mushroom has a very short life therefore international trade is primarily in its processed form

**Outcome:**

- The students can gain Hands on experience in the concern topic, and it provides Entrepreneurship.
- Regardless of all of the disadvantages, Mushroom farming is a sustainable farm practice that offers a remarkable skill development benefits.

**Signature of I/C of Dept.:**.....
