Objectives and outcomes of the course :-

Labour saving: Labour saving is the main aim of introduction of computers in accounting, it refers to annual savings in labour cost or increase in the volume of work handled by the existing staff.

Time saving: Savings in time is another object of computerization. Computers should be used whenever it is important to save time. It is important that jobs should be completed in a specified time such as the preparation of pay rolls and statement of accounts. Time so saved by using computers may be used for other jobs.

Outcomes:

Upon successful completion of Computerized Accounting course the students are able to understand theory, able to apply accounting procedures using computer software, communicate effectively using standard accounting terminology.
