CERTIFICATE COURSE IN

About the course

The human values and professional ethics programme is designed to benefit the students in grooming their personality. The human beings are able to see the need for peaceful co-existence at the level of human society and recognize the need for education as a “fundamental need”.

The overall purpose of education is to enable a human being to live a fulfilling life, in harmony with oneself and with family, society and nature. Hence, it becomes the responsibility of educators to enable the resolution of many issues, so that human society can achieve the cherished goal.

In light of this, it becomes essential to find out what is value, and what is really valuable to human being? While technology is an important human endeavor, it is only a means to achieve what is considered ‘valuable’ for human beings is an effective and efficient manner. It is thus not within the scope of technology to decide ‘what is valuable’ to a human being.

The subject that deals with 'what is of value' or 'what is valuable to a human being' is called value education. Values thus provide the basis for all our actions and there is an essential complementary between values and skills which needs to be ensured in any education system.

Scope

The human values and professional ethics is the certificate course value education and the style of presentation is adopted to facilitate self exploration among the students, developing the right understanding about oneself and the rest of reality through self exploration and realization of inherent co-existence, harmony and self-regulation at various levels in existence is seen to be the real basis for imbibing universal human values and ethical human conduct. And it covers the entire expanse of human living: from self to society, nature and existence and covers all dimensions of human life: thought, behaviour, work and realization. It also facilitates the development of appropriate technology and its right utilization for human welfare.

Outcome:

A tangible change in the thinking of students in terms of their vision about happiness and prosperity, the clarity about life goals, improvement in human relationships, self confidence

etc the effects of self exploration are found to be very rewarding. Students and also teachers have benefited from being able to have a holistic view of the education being imparted and infusing new energy.
