ICT Facilities Available in the Institution

Apart from the formal classroom teaching incessantly to the utmost satisfaction of the stake holders, perfect system is evolved with regard to the ICT facilities which are available in the college.

The outcomes of them are being benefited largely and greatly by the students while

Internet Connections: BSNL and Act Fiber Net

In view of providing immense information and building up their inner and outside personality-Internet facility is available for the faculty and students in the way of elevating ICT facilities through internet. The staff would make use of the internet facility exclusively in the preparation of study material either for classroom teaching or for the distribution of material to students. The students too find it convenient to use the Internet Facility to work in the IT Lab and TSKC Lab.

I.   Teaching learning Process With ICT

The ICT tools play vital role in updating, presenting and proving one's own innovative thoughts truly as the mind's replica in the process of proliferation of ideas, thoughts and impressions. The institution is able to use the ICT Tools to the maximum benefit of Student Community.

ICT Infrastructure

(a) 5 Digital classrooms
(b) 1 Virtual classroom
(c) T-SAT Facility classroom
(d) TSKC Lab with Desktops
(e) 175 desktops in the service of students and staff
   The members of staff and students make use of the above facilities for strengthening teaching learning system in the college. The students would find the pleasure of the using the ICT Tools in the library one hour before and one hour after the college working hours . Besides this "Act Fiber Net" facility is also provided to the students in the campus.

II. Conduction of TSKC, TASK, IIT MUMBAI Spoken Tutorial:

The ICT facilities available in the institution helps to conduct TSKC Programs, TASK training and spoken tutorials (IIT Mumbai) successfully and many students are benefitted by such training programs. The ICT Facilities and Training Programs helped our students to build up their career and employment capacity.

III. Installation of CC cameras for the protection of ICT systems :

The modern methods of teaching and learning activities are actively in progress with the existence of ICT infrastructure and to protect them the CC cameras are installed in the campus .
